

Careers

Welcome

Check out the positions UGX-Mods is offering.

If you are interested in multiple positions, choose the one you are interested in most and mention all other positions in your application. (We actually prefer multiple roles)

UGX-Mods is looking for talented people who can contribute to our website(s), server(s), applications, and/or projects.

We are working on many improvements to our products and website in order to be the best community site available for custom zombie fans.

With more team members we will try to complete our internal goals in a faster amount of time and deliver our community a truly Ultimate Gaming eXperience.

If you are interested in joining our team, don't hesitate to apply for any open position and we will evaluate your application.

But please keep in mind we want you to submit a professional and complete application, otherwise it won't be accepted 😞 (and you would need to reapply again).

Requirements for filling out any job application:

You need to have the following **requirements** met, before filling out an application:

- You need a portfolio of work which is related to the job you are applying for. This can be very informal, we just want to see your work. (A resumé is optional / not required)
- **You must not be in any other team / company which might cause a conflict of interest. If you are unsure, please list your affiliation(s) which are potential conflicts and we will decide if it matters.**
- You must have high availability (daily preferred)
 - Communication via Skype, HipChat and Teamspeak³
 - Willing to use Google Hangouts for more personal meetings or for an interview.
 - Willing (depending on your timezone) to be available for meetings in the morning / evening / midnight on certain days of the week.
- **Minimum Age Required for applicants: 18+**
- Great English speaking and writing skills
- Someone from the *Custom Zombie* scene will be preferred for all positions (but is no requirement).
- Must have teamwork skills but also capable of working independent.

What We Offer

Your Experience and Qualification

- Experience with Vector graphics
- Flexibility and respecting design patterns is a must
- Understanding in what UGX-Mods does and how the community would react
- Access to professional graphics editing program
- Experience with web graphics
- Experience with UX / UI for web & desktop applications

Compensation

No suitable position found?

If you think you would be valuable to our team but do not fit into any of the existing applications, then simply apply anyways and let us know why we would need you.

How to submit an application:

Please note

In order to apply, you will need to **create a new account** via the link below. (Your UGX-Mods Account is not valid on this site!)

Please use your real name to apply and tell us your UGX username (or better your profile link) in your application.

Simply write us your application via our Service Desk
